Digital C-arm system with flat panel detector

	Name	C-arm system with Dynamic detector (PLX118C)	
	Description	1:Generator Maximum output power: 5kW Main inverter frequency: $\geq 110\text{kHz}$ - Continuous fluoroscopy - Pulse fluoroscopy - Radiography 2: Tube: Dual focus - 0.3/1.5mm 3: Dynamic Detector: 9*9inch (21*21cm)-1344*1344 4: Compact C-arm frame (32" monitor and touch screen) 5: DAP Standard. 6: Preview field of patient focus view. 7: Intelligent Inverters technology	

WIFI Digital C-arm system with flat panel detector

	Name	C-arm system with Dynamic detector (PLX118WF)	
	Description	1:Generator Maximum output power: 5kW Main inverter frequency: $\geq 110\text{kHz}$ Continuous fluoroscopy: - Tube voltage: 40kV ~ 120kV - Tube current: 0.3mA ~ 4.0mA Pulse fluoroscopy: - Tube current: 0.3mA ~ 30mA Radiography: - Tube current: 25mA ~ 100mA 2: Tube: Dual focus - 0.6/1.8 3: Dynamic Detector: 9*9inch (21*21cm) 4: C-arm + Trolley workstation (3 monitors) 5: DAP Standard 6. WIFI Connection	

Digital C-arm system with flat panel detector

	Name	C-arm system with Dynamic detector (PLX118F)	
	Description	1:Generator Maximum output power: 5kW Main inverter frequency: $\geq 110\text{kHz}$ Continuous fluoroscopy: - Tube voltage: 40kV ~ 120kV - Tube current: 0.3mA ~ 4.0mA Pulse fluoroscopy: - Tube current: 0.3mA ~ 30mA Radiography: - Tube current: 25mA ~ 100mA 2: Tube: Dual focus - 0.3/1.5 3: Dynamic Detector: 9*9inch (21*21cm) 4: C-arm + Trolley workstation (3 monitors) 5: DAP Standard	

1. Payment Term: 50% deposit by T/T for production arranging, the rest 50% before delivery.
2. Free 1 year warranty, Lifetime Free Online Support.
3. Shipping time: 30-35 days by sea
